

Coolgate X-Flow G2 "Puncture-proof" Single 360mm Copper Plated Radiator

\$82.50

Product Images

Short Description

As a professional manufacturer in Computer liquid cooling area, Coolgates' s product line covers full range of liquid cooling components. Introducing the new G2 Series of radiators! The new G2 series Magicool radiators with optimized tube structures there are no tubes under mounting threads, radiator leaking due to tube damage by using too long screws belongs now to history!

Description

As a professional manufacturer in Computer liquid cooling area, Coolgates' s product line covers full range of liquid cooling components. Introducing the new G2 Series of radiators! The new G2 series Magicool radiators with three main advantages for you:

- With optimized tube structures there are no tubes under mounting threads, radiator leaking due to tube damage by using too long screws belongs now to history!
- By using 1,5 mm wide copper tubes instead of current 2 mm width, liquid going through the tubes has more contact with tube, which means more efficient cooling.
- 27 mm thickness instead of 30 mm thickness means more compatibility, users can build those radiators even in small compact Computer cases.

Features

PERFECT HEAT TRANSMISSION

Optimal FPI (fins per inch) is designed for low speed fans to guarantee silent operation

GREEN ENERGY

Protect environment by using RoHS compliant components, recycled materials and lead-free production

EASE OF USE

G1/4" threads and UNC 6-32 screw threads allow multiple and flexible installations and configurations

HIGH FLOW OPTIMIZED

Triple parallel rows minimize water resistance and achieve optimal cooling performance

THREE YEARS WARRANTY

Based on long-standing professional research, development and production we provide full 3 years warranty on Coolgate heat exchangers

Specifications

- X Flow version radiator
- New tube and fins design: NO tubes under UNC6-32 threads
- Tubes Triple Row 16 mm x 1,5 mm

- Material: Copper Fins, Brass Chambers
- 10 FPI (Fins per inch)
- 2 x G 1/4 Threads
- Weight: 1516 g
- Liquid Volume: 450 ml
- Pressure Tested: 1.5 Bar
- Dimensions: 380 x 120 x 65 mm
- 6-32 UNC threads on both sides for push pull with 120 mm fans

Additional Information

Brand	Coolgate
SKU	CG-360G2X
Weight	5.0000
Color	Black
Radiator Size	360 (3 x 120mm)
Radiator Thickness	65mm
Vendor SKU/EAN	4260242980812

Internet Reviews

The G2 from Coolgate is a high performance all rounder which performs way out of line with it's low price. The finish and presentation is fantastic, and the additional ports are great too. I have no hesitation in awarding it a gold award and the "Best All Round Radiator":
