As a professional OEM manufacturer in Computer liquid cooling area, Magicoool's product line covers full range of liquid cooling components, including different size of heat exchangers, water tanks, pumps, cooling blocks and accessories. Excellent price-performance ratio and reliable quality make Magicoool products unique.

Description

As a professional OEM manufacturer in Computer liquid cooling area, Magicool´s product line covers full range of liquid cooling components, including different size of heat exchangers, water tanks, pumps, cooling blocks and accessories. Excellent price-performance ratio and reliable quality make Magicool products unique.

With its compact design and excellent cooling performance, the Magicool radiators become top choice of water cooling users. The copper fins are specially designed for silent fans, while the parallel coolant channels reduce liquid resistance to a minimum. On both sides of the radiator M3 threads are integrated to allow flexible fan mounting, on top chamber both G1/4" threads allow easy installation of all common fittings and barbs.
