## Product Images

## Short Description

Nine dual-layer rigid blades generate more powerful airflow, air pressure & decrease wind shear noise. Innovative COUGAR diversion claws to provide focused airflow & reduce noisy air turbulences. Reduce the vibrations efficiently & silent operation. WHITE LED with transparent white blade generates energetic visual effect. HB runs more smoothly with no friction, make it quietly & durability. Rubber fixed pins also reduces vibrations (fan run more quietly) and tool-less makes it easy to mount, with no tools required.

## Description
