

Primochill Ghost Compression Fitting - Rubber Grip - 7/16" x 5/8" - Anodized Red

\$6.95

Product Images

Short Description

These PrimoChill Ghost Compression Fittings for Flexible tubing are a combination of nickel coated brass inner section with an aluminum ring for tube sealing. The aluminum outside ring makes them light weight and have rubber rings around the outside to make tightening simple.

Description

These PrimoChill Ghost Compression Fittings for Flexible tubing are a combination of nickel coated brass inner section with an aluminum ring for tube sealing. The aluminum outside ring makes them light weight and have rubber rings around the outside to make tightening simple.

Features

- Lightweight, low profile.
- Nickel Coated Brass interior.
- Interior Compression Oring.
- Bright Aluminum Color.

Flexible Tubing Compatibility: 7/16in. ID x 5/8in. OD

Note: **Although aluminum is used for the outside anodized ring, no aluminum comes in direct contact with the fluid.*
