Short Description

ModMyToys Allure 8mm sleeving is a premium high density, tight weave PET sleeve designed to cover all the bases when doing wider cables and harnesses. Offered at a great price, Allure is perfect for those that will use hundreds of feet to custom sleeve their entire rigs. This easy to use sleeve expands 50% and has a lush vibrant shine to its color when contracted. This requires a very tight weave sleeve that is easy to work with, offered in a rainbow or colors, and can be used for sleeving wider cables such as internal chassis harnesses, USB and SATA cables, all with the same sleeve.

Description

Organizing your cables and sleeving your wires has become an essential skill if you are serious about showcasing your builds. This can only be partially successful when using lesser sleeveings on the market. Today's system builds and modders require the most premium materials they can get that will hide those ugly PSU wires, and turn their rigs, into works of art. This requires a very tight weave sleeve that is easy to work with, offered in a rainbow of colors, and can be used for sleeving wider cables such as internal chassis harnesses, USB and SATA cables, all with the same sleeve.

ModMyToys Ållûre 8mm sleeving is a premium high density, tight weave PET sleeve designed to cover all the bases when doing wider cables and harnesses. Offered at a great price, Ållûre is perfect for those that will use hundreds of feet to custom sleeve their entire rigs. This easy to use sleeve expands 50% and has a lush vibrant shine to its color when contracted. ModMyToys Ållûre is offered in the following colors:
