

Alphacool D-RAM Module (for Alphacool D-RAM Cooler) - Black 2 Pieces

\$36.50

Product Images

Description

Due to the new Alphacool D-RAM modules all memory blocks can easily and quickly be equipped with water coolers!

A fight against the underrated heat source "memory" has been announced with the new system of the Alphacool D-RAM coolers .

With these modules, the memory blocks are clamped in the modules (with the attached thermal pads) to achieve optimum cooling results .

The seperately available D-RAM coolers are added and screwed in at the required siz after successfull assembly.

We recommend a very thin layer of thermal paste applied between module and cooler for an optimal heat transfer.
