

Phobya Wire Saddle Clip 8mm - Black

\$1.45

Product Images

Short Description

A clean case has now become much easier, even if the parts have to be moved regularly.

Description

A clean case has now become much easier, even if the parts have to be moved regularly.

Before this handy accessory was available rough tools had to be used to attach cables, hoses or wires to the case floor or sides. Holes had to be drilled into the new, expensive case. With this new cable holder all that is not necessary any more! Simply pull off the protection foil on the underside and stick onto the desired spot in the case. Then insert the cables, hoses etc. into the latch and remove it whenever it is desired. The high-grade plastic ensures a long lifespan and secure hold.
