Description

Mayhems Blitz Part One only

Mayhems Blitz is the most comprehensive cleaning kit ever released for liquid cooling computers. It has been developed to clean your radiator's better than new and leave your system in perfect condition. Please remember you must use either with the Blitz pro Kit or the Blitz basic Kit. Do not use on its own. This Kit is to extend the basic or the pro kit so user can clean larger systems.

Even though this is a cleaning solution it is not a long term effective inhibitor. Never leave it in your system longer than 24 hours.

This cleaning system is not safe to use around children and animals. Part 1 of the system uses highly effective cleaning acids down to PH 2 and you must take appropriate measures when using such products. You can dispose of the fluids down the drain once they have been diluted.
