Short Description

SHARK Blades

Caution! If you think you know everything about cooling fans, get ready to be surprised! This fan is different, very different. It's a triple attack approach to a silent and cooler system.

Description

SHARK Blades

Caution! If you think you know everything about cooling fans, get ready to be surprised! This fan is different, very different. It's a triple attack approach to a silent and cooler system.

First: wind noise? Not here!

The special 3D curved design with striped air guides steers the airflow straight through the fan blades, thus preventing air turbulence - the main cause of wind noise. Even after many hours of use, the fan remains silent due to the end of the guides having special 'shark' teeth to reduce both drag and dust build-up. This shark can bite, so chose one of the several different brightly colored air guides to confirm that it's running (since you won't hear it...) in order to protect your fingers while working inside your computer.

Second: Vibration noise eliminated.

The SHARK Blades are equipped with a fluid bearing for long life and ultra-smooth operation. Fluid bearings are used in many high-performance hard disk designs and are popular for their smooth operation and long lifespan. The fan blades are precision balanced to avoid vibrations.

Third: Controlled power.

With its 120 mm diameter, optimized airflow and powerful, yet silent motor, there is plenty of cool air available for your system. The SHARK Blades are powered directly from the power supply, using the included

adapter plug or a 3-pin socket for a temperature controlled run.

Features

- Unique 3D frame design for optimal air flow
- Special air-stabilizing fan blade design
- Fluid Dynamic Sleeve Bearing
- Cable with textile sheathing
- Universal connection cable (50 cm with 3-pin plug)
- PSU adapter cable included (3-pin > 4-pin PSU)
- Available color versions: black/yellow, black/red, black/blue and black/green

Specifications

Air flow:	56 m ³ /h
Air flow range:	50 - 99 m ³ /h
Dimensions:	120 x 120 x 25mm
Frame Color:	Black
Input:	1,2 W
LED:	Not available
Manufacturer:	Sharkoon
Power connector:	3Pin Molex, 4Pin Molex
Pressure:	2,63 mm H ₂ O
RPM signal transmission:	Yes
Rated speed:	1000 rpm
Rated speed range:	1000 - 1450 rpm
Rotor color:	gelb
Size:	120mm
Start volatge:	7,0 V
Voltage rated:	12V DC

Volume: 19 dB(A)
Volume range: 10 - 19,9 dB(A)

Additional Information

SKU	1011644
Weight	0.7500
Color	Blue
Fan Dimensions	120mm
Fan Width	25mm
Fan Connection	3-Pin
Fan Voltage	12 VDC
Fan RPM	1000
Fan CFM	56
Fan Noise (dB)	19
Vendor SKU/EAN	4044951013883
