

Mayhems 13mm (OD) Borosilicate Glass Tube - 500mm

\$24.95

Product Images

Short Description

Mayhems bespoke laboratory grade, hand blown and hardened glass tubing are made in the UK to the highest possible standards.

Description

Mayhems bespoke laboratory grade, hand blown and hardened glass tubing are made in the UK to the highest possible standards. Developed from the 'ground up' Mayhems Laboratories have taken the concept of 'Glass Like' to the extreme and utilised local knowledge within the UK to produce hardened tubing for liquid-cooled PC's. The size of the tubing conforms to standard sizes that are common within the industry today. Mayhems tubing is fully compatible with other popular fittings from Alphacool, Bitspower, EK, Thermaltake (amongst other brands). The previously mentioned tubing has been stress tested beyond 'normal' temperatures (100c+) and tested with all Mayhems coolants

Warning

Use appropriate safety measures when working with glass, this include safety glasses / goggle and gloves. Dispose of glass off cuts and glass dust safely. These products do not brake into small fragments they shatter into shards.
