

Monsoon MMRS Acrylic Tube Coupler - Black

\$9.95

Product Images

Short Description

Molded from heavy duty nylon with a black satin finish, this COUPLER allows you to connect two or more sections of tube and provides the ability to add two side facing ports anywhere along the length of your reservoir in 50mm (2") increments based on the tube lengths you opt to use for your reservoir configuration. The mounting holes allow you to mount your reservoir perpendicular, 60 degrees left or 60 degrees right.

Description

Monsoon Modular Reservoir System

Monsoon's new Modular Reservoir System allows you to configure exactly the reservoir you need for your build—no more forcing your build to fit around an off the shelf, one-size-fits-all reservoir. All of the components are sold separately allowing you to mix and match different end caps, couplers, tension rods, tube lengths, mounting options, fill and drain ports, pump options, and lighting.

Because the system is FULLY modular and every component is sold separately, you only buy the components you need for the reservoir you actually want for your dream rig. This saves you money now and down the road when you're upgrading your cooling loop or reusing the reservoir in a new build—just add the few components you need for the new build without buying an entirely new reservoir.

Assembly is straight forward and all the components are made of top quality materials with excellent fit and finish. Check out the how-to video links below for an overview of MMRS and videos on using the different components. Unleash your creativity and set your imagination free with MMRS.

MMRS-BH

Molded from heavy duty nylon with a black satin finish, this COUPLER allows you to connect two or more sections of tube and provides the ability to add two side facing ports anywhere along the length of your reservoir in 50mm (2") increments based on the tube lengths you opt to use for your reservoir configuration. The mounting holes allow you to mount your reservoir perpendicular, 60 degrees left or 60 degrees right. Includes one molded nylon coupler, two O rings, six threaded set screw connectors and box wrenches.

INCLUDED:

- Includes 1 molded nylon coupler.
- Two high quality tube O rings.
- Six threaded Set Screw Connectors.
- Two box Wrenches.

Be sure to watch our how-to assembly videos below for more information on how and where to use this part in your reservoir build.

Additional Information

Brand	Monsoon
SKU	MMRS-BH
Weight	0.3000
Color	Black
Reservoir Accessory Type	Coupler
