

# Thermal Grizzly Hydronaut High Performance Thermal Grease - 1g

\$6.95

## Product Images

## Short Description

Hydronaut can be used for overclocking due to its excellent thermal conductivity, but it was created specifically for users with larger-scale cooling solutions, who are looking for a quality product with an excellent price-performance ratio, for example for their water cooling system.

## Description

---

Hydronaut can be used for overclocking due to its excellent thermal conductivity, but it was created specifically for users with larger-scale cooling solutions, who are looking for a quality product with an excellent price-performance ratio, for example for their water cooling system.

The Hydronaut thermal grease delivers optimal heat transfer capabilities for larger-scale cooling solutions like water cooling systems.

Hydronaut thermal grease consists of a silicon-free structure. This makes it very light and highly flexible and easy to apply.

Hydronaut achieves best results if used on medium- to large-scale cooling solutions. This product is ROHS-compliant for demanding users.

## Specifications

---

<i>Thermal Conductivity</i>	11,8 W/mk
<i>Thermal Resistance</i>	0,0076 K/W
<i>Electrical Conductivity*</i>	0 pS/m
<i>Viscosity</i>	140-190 Pas
<i>Speific Weight</i>	2,6g/cm <sup>3</sup>
<i>Temperature</i>	-200 °C / +350 °C
<i>Capacity</i>	1,5ml / 3,9g - 3ml / 7,8g

*\*following DIN 51412-1*

## Additional Information

---

Brand	Thermal Grizzly
SKU	TG-H-001-RS
Weight	0.2500
TIM Type	Paste
Vendor SKU/EAN	0753677507586
