

Aquacomputer Aqualis Base for Pump Adapter 450ml w/ Water Column Effect & Nano Coating

\$62.95

Product Images

Short Description

The reservoirs of the aqualis series feature a tube made from borosilicate glass, featuring, unlike the common Plexi reservoirs, very high hardness and scratch resistance paired with low thermal expansion and excellent chemical and thermal resistance.

Description

The surge tank of aqualis series are equipped with a tube made of borosilicate glass, which in contrast to the Plexiglas frequently used for pipes expansion tank has a very high hardness and scratch resistance, very low thermal expansion and excellent chemical and thermal resistance. The glass tube has an outer diameter of 75 mm and a wall thickness of 5 mm. Bases and covers the aqualis series are made of Delrin, are connected top and bottom by a nickel plated brass tube.

The aqualis base for pump adapters are equipped at the bottom with connecting and can only be used with a matching Aqua Computer pump adapter!

Special type 45325 and 45324:.. Optionally can be mounted in two G1 / 4 thread up to two lighting modules.

Special Type 45332:.. A visual highlight is the integrated water column effect. If the return line connected to the terminal in the base, the water flows through the central tube to the brass lid and enters there through eight holes, which is a real eye-catcher, especially in conjunction with lighting. A thin plexiglass plate near the bottom of aqualis reduces air entry into the circulation to a minimum. These products have also into the socket integrated Plexiglas windows and can accommodate the installation of up to six LEDs (type 5 mm, z. B. Art. 95025, not included in delivery).

All versions are also available with a nano coating is available, the water simply pearls off from the inside of the glass tube.

Specifications

- Dimensions: approx 80 x 80 x 185 mm
- Filling volume: 450 ml

Scope of supply:

- A surge tank
- Two screw plugs G1 / 4 (pre-assembled)
- Fastening material

Please note: The expansion tank can be used only in combination with an appropriate pump adapter, please order a matching pump adapter separately. The version for pump adapter has no water column effect!
