Description

With the new NexXoS GPX coolers Alphacool is again a step ahead! Optimum performance and quality in a new cooling design for a great price!

A new sophisticated injection system means the GPU is actively cooled. All other chips are sufficiently cooled by the passive cooler which is also in contact with the watercooling block for extra efficiency.

The patented technology "Philips structure" from the Alpha NexXoS XP in 2004, was further developed improving the base plate. The Fins and channel structure has been further refined. The fins are now 0.5 x 0.5 mm and 2.5 mm high. This enables a very large and rapid heat transfer from the copper to the coolant.

Specifications

Connector:	2x G1/4
Cooler model:	Complete cooler
Hardware manufacturer:	NVIDIA
Hardware model:	GTX 970
Hint:	Compatible till 16/13mm straight, Compatible till 9/13mm angled
Manufacturer:	Alphacool

Material cooling plate: Copper
Material top cover: Plastic
SLI compatibel: Yes (Special adapter)

Compatible:
GALAX GeForce GTX 970 4GB GDDR5 (97NPH6DT6XVZ)
GALAX GeForce GTX 970 4GB GDDR5 (97NPH6DT6XTZ)

Scope of delivery:
1x VGA cooler
1x Back plate
Thermal pads
Thermal Compound
mounting material

The installation manual can be [downloaded](#) here.

Notice: Alphacool recommended for correct operation of the water cooling distilled water.

Additional Information

Brand	Alphacool
SKU	AC-11267-D
Weight	2.5000
Color	Black
Vga	970 GTX
Block GPU Type	Nvidia
Block Style	Copper
Vendor SKU/EAN	4250197112673
Special Price	\$9.99
