Short Description

DarkSide LEDs were designed from scratch by adapting luxury automotive LEDs to computer modding. Our LED features ultra-bright Japanese LED modules, custom design circuit board, and custom DarkSide Connect micro-connectors. The DarkSide Connect name comes from a modular power extension cable design; it allows you to select the best power cables for you. It also makes it easy to change to another type of connectivity without replacing the entire LED product

Description

DarkSide LEDs were designed from scratch by adapting luxury automotive LEDs to computer modding. Our LED features ultra-bright Japanese LED modules, custom design circuit board, and custom DarkSide Connect micro-connectors.

The DarkSide Connect name comes from a modular power extension cable design; it allows you to select the best power cables for you. It also makes it easy to change to another type of connectivity without replacing the entire LED product. DarkSide Connect cables help to reduce cable clutter in your custom computer systems.

Our newest version CONNECT G2 utilize the very latest Japanese made IC module that has half height (from previous IC) thus reducing our LED height by 33% from (3mm to 2mm). The beam of light will be 33% wider, light emitting surface 2.4 time bigger and brighter, while power envelope is lower than before.

REMINDER: Do not forget to select your DARKSIDE CONNECT cable option from the drop down menu below.

Safe Handling Notice: Do not bend and do not shortcut to avoid permanent damage.

Specifications

- LED Color: **RED**
- PCB : Custom 30cm, Rev2
- LED count: 27
- Operating voltage: ~6v-12v (min-to-max brightness)

- Power consumption: 2.5W
- Power Wire Type: 7cm, modular (CONNECT)
- Sleeving: Jet Black HD sleeving
- Comes with adhesive tape strips

Additional Information

Brand	DarkSide
SKU	DS-0620
Weight	0.4000
Lighting Type	Rigid LED Strip
Length	12"
LED Color	Red
Vendor SKU/EAN	712190087029
