Description

The Cougar 600K has been designed for Pro Gamers who don't want to be burdened by unnecessary and complex functions. 600K stays away from gimmicks and goes straight to the point: quality, functions you actually use and durability, all with a gorgeous design. The COUGAR 600K is the best keyboard for those people who want a NKRO mechanical keyboard but do not need any of the additional functions that other high end keyboards usually come with. Only the standard keys plus some core handy functions that don't get in the way. All of this in an award-winning aluminum design inspired by the geometrical shapes of stealth warships' silhouettes. No macros, no remappings, no setups. Just you and the highest quality keyboard available on the market.

Features
