Short Description

With the new NexXoS GPX coolers Alphacool is again a step ahead! Optimum performance and quality in a new cooling design for a great price!

Description

With the new NexXoS GPX coolers Alphacool is again a step ahead! Optimum performance and quality in a new cooling design for a great price!

A new sophisticated injection system means the GPU is actively cooled. All other chips are sufficiently cooled by the passive cooler which is also in contact with the watercooling block for extra efficiency.

The patented technology "Philips structure" from the Alpha NexXoS XP in 2004, was further developed improving the base plate. The Fins and channel structure has been further refined. The fins are now 0.5 x 0.5 mm and 2.5 mm high. This enables a very large and rapid heat transfer from the copper to the coolant.

Features

SLI mode: The inlet and outlet are positioned of easy use in SLI mode. Up to four graphics cards can also be connected with the Alphacool GPX SLI connector.

Back plate: The GPX range always Includes a back plate which uses small passive fins to cool rear of the graphics card.

Cooling fins: The passive front plate cooling uses 18mm deep cooling fins that cover the rest of the graphics card completely.

Graphics card not included

Specifications

Connector:	2x G1/4
Cooler model:	Complete cooler
Hardware manufacturer:	NVIDIA
Hardware model:	GTX 960
Hint:	Compatible till 16/13mm straight, Compatible till 9/13mm angled
Manufacturer:	Alphacool
Material cooling plate:	Copper
Material top cover:	Plastic
SLI compatibel:	Yes (Special adapter)
Scope of delivery:	
	<ul style="list-style-type: none">• 1x VGA cooler• 1x Back plate• Thermal pads• Thermal Compound• mounting material

Additional Information

Brand	Alphacool
SKU	AC-11297-D
Weight	4.1000
Color	Black
Vga	960 GTX
Block GPU Type	Nvidia
Block Style	Copper
Vendor SKU/EAN	4250197112970
Special Price	\$9.99
