## Short Description

The new Alphacool AGB comes in three different models. You can either connect a Laing DDC, the Alphacool DC-LT or the Laing D5/Alphacool VPP655 at the backplate depending on the model which you use.

## Description

---

The step towards perfection

The new Alphacool AGB comes in three different models. You can either connect a Laing DDC, the Alphacool DC-LT or the Laing D5/Alphacool VPP655 at the backplate depending on the model which you use.

The brushed plate provides an optical finishing touch which is underlined by the high quality processing. The front consists of a scratch-secure soft-touch surface painted in black-matt.

The Eisfach is mounted in two of the front 5,25" bays which provides a good overview of the container and the fill level is easily being checked through the lighted window at the back. Additionally, the Alphacool logo in the front can be lighted by connecting the 3-pin connector with a power source.

A lot of details complement the first impression!

Two 1/4" holes at the top side are available for the first filling. To refill you can simply remove and extract the fillport in the front and two 1/4" holes at the bottom side facilitate the draining of the liquid. There are two lighting modules at the right hand side at the back of the container behind the window for 5mm LEDs. This provides a unique opportunity for personalised lighting and optic. Further two holes at the left hand side provide additional opportunities to fill or drain the liquid. The last two 1/4" threads are used to fill or drain the container. A Bubble Down module has been placed behind the inlet to prevent turbulences that could lead air into the watercircle.

## Specifications

---

Color:	black
Connector:	G1/4" inner thread
Fillport:	G1/4" inner thread
LED hole:	Available (for 5mm LEDs)
Manufacturer:	Alphacool
Material:	POM
Model of reservoir:	2x 5 1/4" Bayres
Number of connections:	10
Preinstalled pump:	Yes
Pump compatibility:	For DC-LT

Technical data:

material: plastic and metal

color: black

measurements (LxDxH): 148 x 119 x 84,5mm

connector thread: 10x 1/4"

lighting: 2x 5mm LED

## Additional Information

---

Brand	Alphacool
SKU	AC-13286
Weight	5.0000
Color	Black
Reservoir Type	Dual-Bay Res
Pump Type	DC-LT
Vendor SKU/EAN	4250197132862
Special Price	\$59.95
