Short Description

The Antarctica comes with a 3D optimized heatsink that offers best-in-class thermal performance. The engineers of GELID Solutions especially designed a set of 5 power heat pipes, aluminum fins with improved profiling and an additional smaller heatsink with a copper core. These elements provide exceptional heat transfer from the CPU to the heatsink. Both heatsinks were created using precise software simulation and calculation during the development stage to ensure efficient air flow distribution at the lowest fan speed possible. The result, the Antarctica fully supports heat transfer of TDP 220W being paired with even very low-speed, virtually noiseless fans.

Description

The Antarctica comes with a 3D optimized heatsink that offers best-in-class thermal performance. The engineers of GELID Solutions especially designed a set of 5 power heat pipes, aluminum fins with improved profiling and an additional smaller heatsink with a copper core. These elements provide exceptional heat transfer from the CPU to the heatsink. Both heatsinks were created using precise software simulation and calculation during the development stage to ensure efficient air flow distribution at the lowest fan speed possible. The result, the Antarctica fully supports heat transfer of TDP 220W being paired with even very low-speed, virtually noiseless fans.

A silent 140mm fan with the intelligent GELID PWM (Pulse Width Module) control compliments the heatsink. The fan blades are optimized to deliver high air flow at low speed, and the newly designed PWM IC eliminates any clicking noise. The intelligent GELID PWM curve operates the fan in an extended speed range of 450 RPM to 1500 RPM, it constantly keeps the fan silent but accelerates speed whenever additional cooling is needed. With 2 sets of fan mounts, a second fan can be installed to improve the cooler's outstanding performance even further. Additionally, the multi-award winning high performance GC-Extreme thermal compound is already included in the package.

Additional Information

Brand	Gelid Solutions
SKU	CC-ANTARTICA-01-A
Weight	2.0000
Color	Black
Fan Dimensions	140mm
Fan RPM	1500
Fan CFM	80
Special Price	\$39.99
