

Aquacomputer aquastream XT Upgrade Kit to aquastreram ULTIMATE

\$67.95

Product Images

Short Description

This upgrade kit can be used to convert an existing aquastream XT pump to an aquastream ULTIMATE pump. After upgrading, all aquastream ULTIMATE features are available, there are no functional limitations compared to pumps shipped as aquastream ULTIMATE pumps from factory.

Description

This upgrade kit can be used to convert an existing aquastream XT pump to an aquastream ULTIMATE pump. After upgrading, all aquastream ULTIMATE features are available, there are no functional limitations compared to pumps shipped as aquastream ULTIMATE pumps from factory.

Features

- One aquastream ULTIMATE controller with OLED display, pre-assembled with red plastic housing

Please note:

This upgrade kit is compatible to aquastream XT pumps only.

If used with very old aquastream pumps (aquastream 3.5 for example), the pump impeller must also be replaced - please contact Aqua Computer customer service if necessary. Not compatible to other pump models or brands!
