

# Alphacool HT 16mm HardTube compression fitting 90° L-connector for plexi- brass tubes - chrome

\$10.95

## Product Images

## Description

With the new screw-on from Alphacool Plexi for brass borosilicate or carbon tubes Alphacool takes another step towards perfection and quality .

The first two colors , Chrome and Deep Black offer great variety . The product matching series makes every system shine in its own glory and individuality knows no bounds in combination with Alphacool Plexi brass tubes !

With a new process during chromating the surface finish is connected to the brass body . The longevity of the intense colors and peeling of the chromium layer is inhibited . A Alphacools lettering on the terminals

raises the individuality of these items again

The function of this connector:

This port is used by two 13mm perspex brass borosilicate or carbon tubes to connect to a 90 ° angle .

## Specifications

---

1. Side:	16/13mm
