Short Description

PPCS DC12V 5m waterproof 300 LED 5050 SMD Black Pcb flexible strip RGB 60Leds/m tape DIY Ribbon car lamp

Description

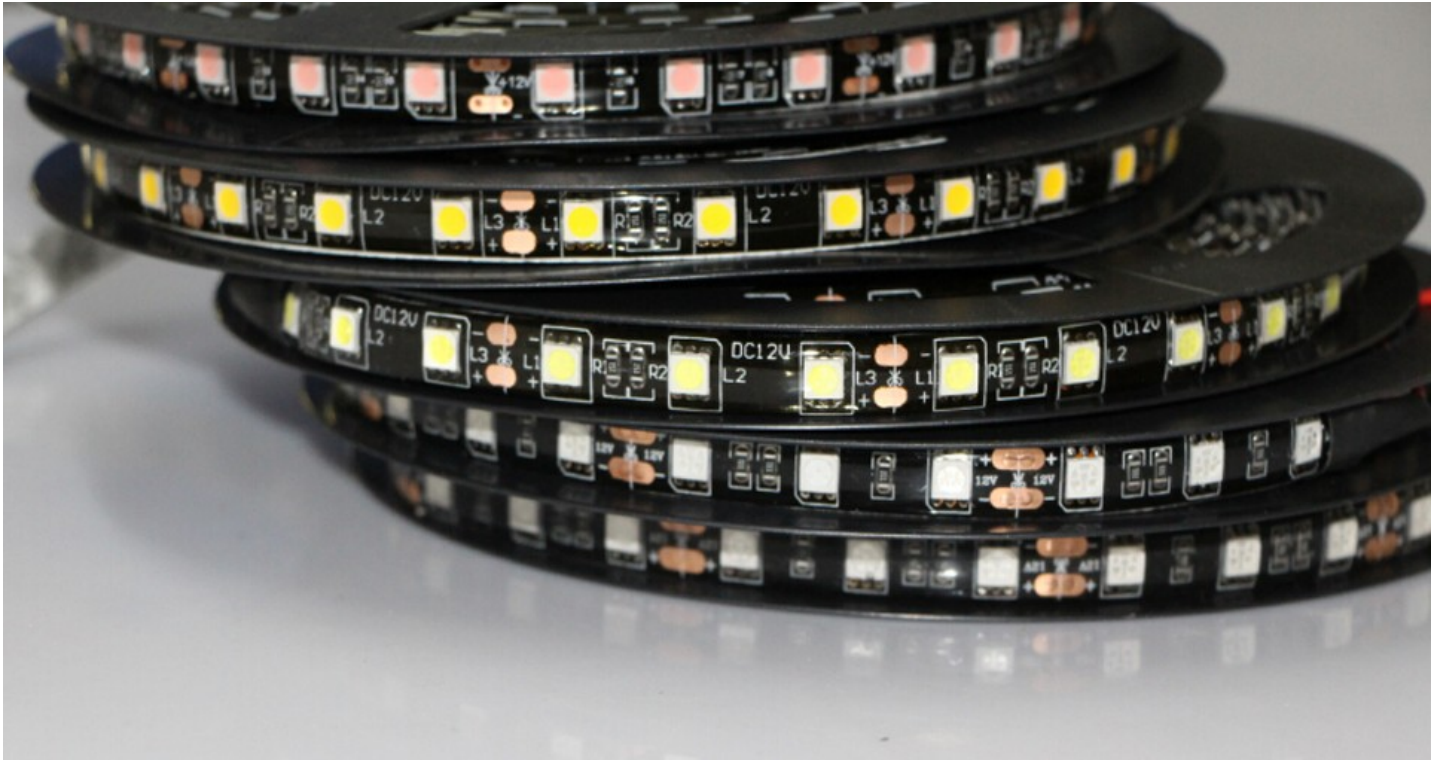

PPCS DC12V 5m waterproof 300 LED 5050 SMD Black Pcb flexible strip RGB 60Leds/m tape DIY Ribbon car lamp

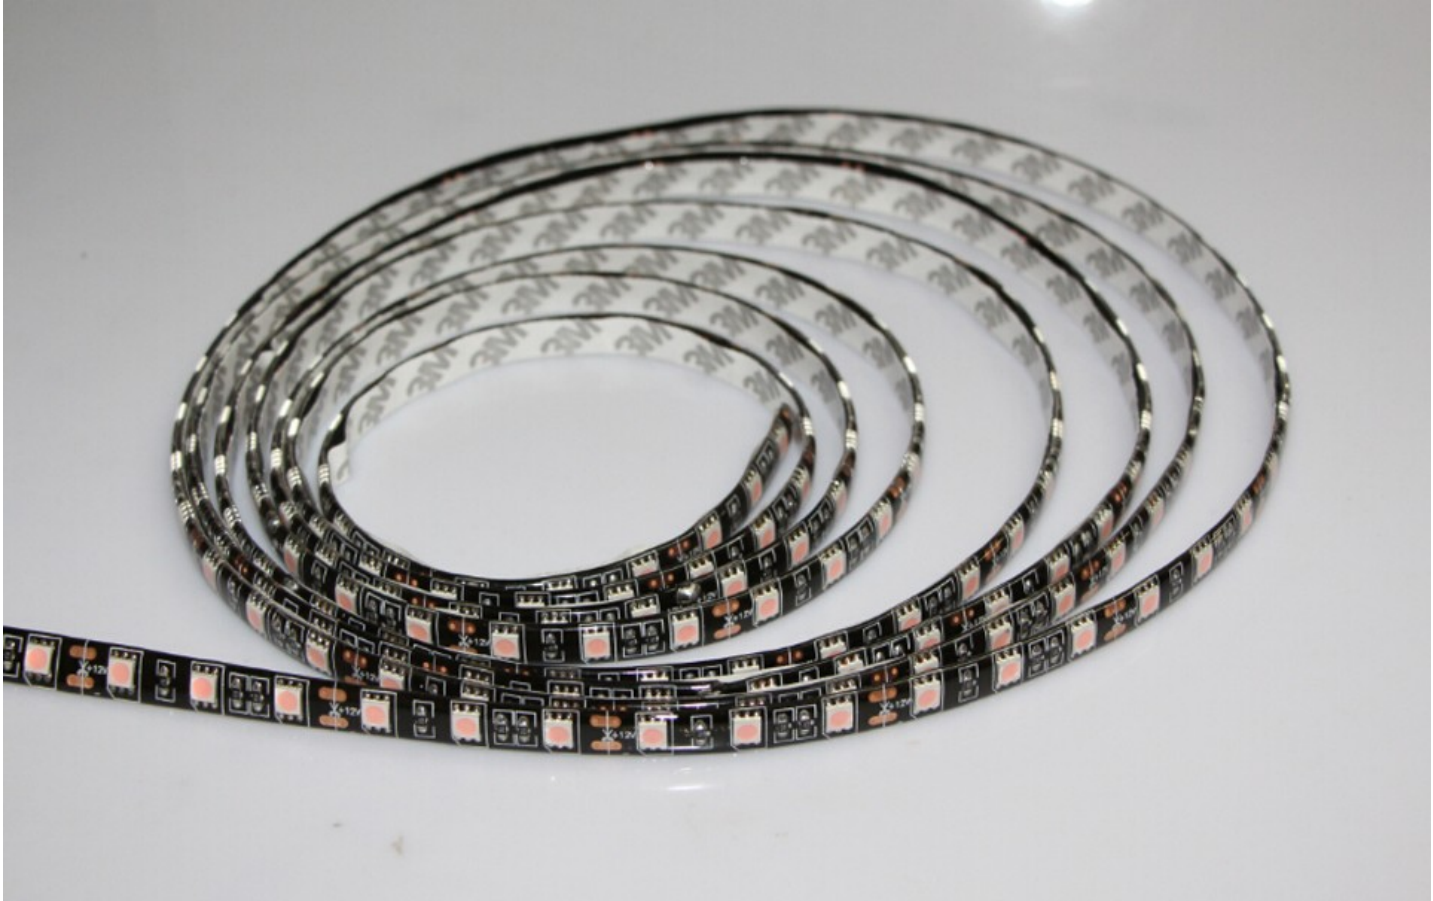

- 1.The strip is soldered by each 0.5 meters small strips.
- 2. RGB strip has 4 wires. Each 3 LED can be cut.
- 3.Red, green, blue, yellow, white and warm white strip only has two wires. Each 3 diodes can be cut.
- 4.When connecting RGB strip, a RGB controller is needed.(If LED Light can not be lighted up, please make sure the arrow on the strip and controller at the same side)
- 5.When connecting single color strip, a DC power connector is needed. You may choose to buy a single color controller or not.If LED Light can not be lighted up, please change positive(+) to negative(-) (Swap the right and left wires)
- 6 The strip may have some defects such as falling off shrinkable tube, broken coil or wrinkled adhesive tape. These defects may occur during transportation, however, all of them don't impact the function of this product. The strip can still work well even if it's folded because it's a flexible LED strip.

- If the adhesive tape is not flat, you may use a hair drier to make it flat.

Product Specifications

Features

- Superb right 5050 SMD LED, high intensity and reliability.

- Long life span 50,000 hours
- Continuous length, packed with 5 meter.
- Flexible ribbon for curving around bends
- Completely smooth and even light spread, solving the uneven luminous problem
- Ultra-bright but running at low temperature
- Low power consumption

Specifications

- Size: L500cm (5M) x W1cm x T0.25cm
- Emit Color: RGB
- Protection RateIP65 WATERPROOF
- Working Voltage: 12V DC
- LED Quantity: 60leds / m, 5meter / roll
- View angle: 120 ° ~ 140 °
- Working Temperature: -20 ° to 50 °
- Wattage: max 0.25w/led

Additional Information

Brand	PPCS
SKU	PPCS-RGB-5M-BK
Weight	2.0000
Lighting Type	Flexible LED Strip
Length	5 meters
LED Color	RGB
LED Size	5mm
