Short Description

The Cooler Master Comforter combines both superb ergonomics and friendly design in one. This attractive laptop pad is engineered to provide a comfortable computing experience.

Description

The Cooler Master Comforter combines both superb ergonomics and friendly design in one. This attractive laptop pad is engineered to provide a comfortable computing experience. With its uniquely curved and angled design, the Cooler Master Comforter can easily be used in three different ways: placed on a table, on a lap while sitting up, or on one's legs while lounging around. The curve top surface ensures notebook air flow, while the soft underside helps relieve stress when used on the lap. The Cooler Master Laptop Pad is

compatible with notebook computers up to 17", and provides a stable surface for users to enjoy their notebook computers. Elegant and effective, simple yet attractive, the Cooler Master Laptop Pad is ideal for users at home to use their notebooks in complete comfort, no matter how they choose to work.

Features

- Provides a stable platform for casual use
- Cushioned for comfortable use when placed on lap
- Unique reversible ergonomic design
- Concave groove for heat dissipation
- Compatible with up to 17" notebook
