

Phobya Screw DIN 7985 M3 x 35 Cross Flat Zinc Coated

\$0.59

Product Images

Description

Hex screws for mounting of fans (25mm) in radiators + aperture and / or housing cover. Through the use of

countersunk screws a clean design is ensured and the head closes smoothly. The conformity with DIN promises hassle-free transfer in all technical areas.

The variety of finishes opens up new applications and possibilities for your very own and unique computer!

These screws should be used only in combination with fan / radiator grill and fan, as the screws are too long for just assembly and damage the radiator.

Specifications

Compatibility among others:

All NexXoS, Magicool, Airplex, Thermaltake, Innovatek, Koolance, Phobya and EK Water Blocks Radiators.
