## Description

---

HardTubes enjoy great popularity, and Alphacool is constantly offering new products in this area. Anyone who want to see clear, clean lines in their computer can hardly go without them.

The most popular HardTubes are clear and transparent. HardTubes made of brass and carbon are also catching on. Now, under its "Eis" product line, Alphacool is offering the "Eisrohr". Its surface gives off the appearance of ice and feels like it too – somewhat rough, but still smooth.

With the "Eisrohr", you effectively change the look of your system. You can especially see its true effects after refilling the system. The water has the appearance of frosted ice. With clear HardTubes, when the system is lit by LEDs, you see the reflection of each individual LED very clearly. Not so with the "Eisrohr". Instead, the light is diffused and you get a softer, better illumination.

Notice:

The "Eisrohr", like all acrylic HardTubes, can be bent with the proper bending tools. However, this will noticeably change the appearance of the tubes at the bends and no longer creates the same optical effect. This can be used to create different effects, but if you wish to keep the "Eisrohr" look, appropriate connectors should be used in place of bending.

## Specifications

---

Technical Details:

- Material: PMMA (acryl)

- Length: 80cm

Scope of delivery:

- 1x Alphacool Eisrohr 16/12mm plexi (PMMA) satin 80cm - 4pcs

Color:	Transparent
Inner diameter:	12mm(1/2")
Lenght:	0,80m
Manufacturer:	Alphacool
Material:	Acryl glass
Max. Operating pressure:	4 Bar (at 20°C)
Outer diameter:	16mm (5/8")
Service temperature:	-20°C bis 60°C
UV - color:	Non UV-activ

Additional Information

Brand	Alphacool
SKU	AC-18511
Weight	6.0000
Color	Frost
Tube Type	Acrylic
Tube Size	13mm x 16mm
Material	Plexiglass
Vendor SKU/EAN	4250197185110
