Short Description

The Tt eSPORTS COMMANDER Gaming Gear Combo from Thermaltake is a USB keyboard and mouse combo especially designed for gaming. The keyboard features metal-looking edges, multi-light LED backlighting, and plunger switches with mechanical keycaps that help provide the tactile feel and responsiveness of a mechanical keyboard.

Description

The Tt eSPORTS COMMANDER Gaming Gear Combo from Thermaltake is a USB keyboard and mouse combo especially designed for gaming. The keyboard features metal-looking edges, multi-light LED backlighting, and plunger switches with mechanical keycaps that help provide the tactile feel and responsiveness of a mechanical keyboard. The keycaps can be replaced with Metalcaps (available separately) which provide a more durable feel and better performance. The function keys of the keyboard offer control of functions such as the repeat rate and reassigning key values, while multimedia, shortcut, lighting, and function keys can be customized on-the-fly without the need for software. The keyboard also features anti-ghosting keys and a polling rate of 125 Hz.

Features

Keyboard

Metal Edges

The keyboard was designed with metal-looking edges with red, blue, and purple illumination options

Tactile Feel Plunger Switches

Plunger switches with mechanical keycaps give users a tactile feel that clicks with each keystroke while giving a responsive feeling that is similar to using a mechanical switch keyboard

Replaceable Metalcaps

Keycaps can be replaced with Tt eSPORTS Metalcaps (available separately) to provide a tougher feel and to customize the keyboard

Function Keys

Integrated function keys offer options such as adjusting the Repeat Rate and assign the WSAD keys to operate as arrow keys, or vice versa. The Windows Lock key locks the Windows key to help prevent accidental uses of the Windows key while gaming

Illumination Backlighting

The red, blue, and purple LEDs with adjustable illumination bring night-time functionality to your system, allowing use in the dark

Multimedia & Shortcut Keys

Multimedia keys, shortcut keys, lighting keys, and function keys provide accessibility at and are adjustable on-the-fly, without the need for software configuration

Mouse

Sensitivity and Clicks

On-the-fly sensitivity is adjustable at 800, 1200, 1600, and 2400 dpi

Ergonomic Shape

Palm grips provide comfort during use

LED Illumination with Pulse and Running Effects

Four lighting effects including Static, Pulse, Pulse Jumping, and Red and Blue Jumping provide a customizable mouse look. LEDs light up the front, back, sides, and top of the mouse, as well as the dragon logo
