

AquaComputer Dr. Drop pressure tester incl. air pump

\$33.95

Product Images

Short Description

Dr. Drop is an ingeniously simple pressure tester for your entire water cooling loop or for single components.

With an included air pump, a test pressure can be applied. A large manometer with a diameter of 63 mm allows for precise pressure readings. A second valve is included to discharge the pressure after testing. The pressure tester has a G1/4 inner thread to be equipped with a hose fitting compatible to your preferred hose diameter.

Added bonus for bicyclists: The air pump fits car tire valves (Schrader) as well as French (Sclaverand) tyre valves. A pump holder (hole pattern like bottle holder) is included as well.

Added bonus for bicyclists: The air pump fits car tire valves (Schrader) as well as French (Sclaverand) tyre valves. A pump holder (hole pattern like bottle holder) is included as well.

Specifications

- Base part material: Delrin, black
- Measuring range: 0 - 0.6 bar (approx. 0 - 8.7 PSI)
- Connection thread: G1/4

Scope of delivery:

- Pressure tester
- Air pump

Additional Information

Brand	Aquacomputer
SKU	AQ-34087
Weight	0.5000
Color	Black
Msc Watercool	Pressure Sensor
Vendor SKU/EAN	4260073419543
