

Mayhems Non Stain Green Dye - 15ml

\$8.95

Product Images

Short Description

Mayhems non staining dyes reduce or eliminate staining on most hard surfaces, skin, fabrics and equipment that is non-porous, **but does not include flexible tubing**. These new Mayhems non stain dyes have a wide pH stability scope and can be used in liquid cooled PC's and Coolants. They should keep their colour longer than any normal high quality dye.

Description

Mayhems non staining dyes reduce or eliminate staining on most hard surfaces, skin, fabrics and equipment that is non-porous, **but does not include flexible tubing**. These new Mayhems non stain dyes have a wide pH stability scope and can be used in liquid cooled PC's and Coolants. They should keep their colour longer than any normal high quality dye.

All Mayhems Non Stain dyes can be mixed with each other to create a much wider range of colours. Mayhems non stain dyes can be also be used with Pastel, Aurora. X1, XT1.

Features

Mixing example: Blue + Yellow = Green Yellow + Red = Orange Red + Blue = Purple Warning To keep the nonstaining ability it must be mixed with Ultra Pure H2O, Pastel Ice White, X1 clear or XT-1 clear only. Mixing Nonstaining dyes with any premixed coloured coolants will result in a staining product. Mayhems non stain dyes are compatible with Mayhems current range of products (X1, XT1, Pastel, Aurora). They have not been tested on any other manufactured fluids.
