

Aquacomputer water block for kryoM.2, nickel plated

\$67.95

Product Images

Short Description

Water block for kryoM.2 PCIe adapter board.

The connector terminal of the water block is the same as used for the kryographics blocks. This allows using kryoconnect adapter kits to connect several blocks directly with each other.

Description

Water block for kryoM.2 PCIe adapter board.

The connector terminal of the water block is the same as used for the kryographics blocks. This allows using kryoconnect adapter kits to connect several blocks directly with each other.

Specifications

Connector: 2xG1/4

Manufacturer: Aquacomputer

Material bottom: Copper

Material top cover: Aluminium

Scope of delivery:

- Water block, G1/4 connection threads
- Mounting material

Additional Information

Brand	Aquacomputer
SKU	AQ-53229
Weight	1.0000
Color	Silver
Material	Copper/Aluminum
Vendor SKU/EAN	4260073419505
