

Watercool HEATKILLER® Tube - decoupling kit for stand

\$6.75

Product Images

Short Description

This decoupling is used between base and case back. Due to its soft rubber compound, it effectively prevents the transmission of vibrations to the housing.

Description

This decoupling is used between base and case back. Due to its soft rubber compound, it effectively prevents the transmission of vibrations to the housing.

Recommended when using an expansion tank of HEATKILLER® Tube series with a lower part of a D5 or DDC pump.
