Short Description

Alphacool's new quick connectors, called the "Eiszapfen" (icicle), are the newest addition to the "Eis" series. High quality and impressive features take every water cooling system a step forward in quality and practicality!

A quick-release connector can be used anywhere where expandability, flexibility, or cleanliness play a big

role. The compact connectors have a 1/4" thread on both sides, making them compatible with all standard components.

Description

Alphacool's new quick connectors, called the "Eiszapfen" (icicle), are the newest addition to the "Eis" series. High quality and impressive features take every water cooling system a step forward in quality and practicality!

A quick-release connector can be used anywhere where expandability, flexibility, or cleanliness play a big role. The compact connectors have a 1/4" thread on both sides, making them compatible with all standard components.

The connectors can be separated by pulling down the outer rings. Both sides immediately shut completely, so that no water can leak out. The special N.D.S.L. technology (no drip, no splash, no leak) ensures no water drips, splashes or leaks out while opening the connectors. When the pieces are reconnected, both sides audibly click together and are locked tightly with a double o-ring, which is simply pressed together when reconnecting. This also prevents any deterioration of the o-ring. The mechanism was also designed for longevity, to ensure a secure connections even after several years.

Many quick connectors tend to compromise the flow rate. But Alphacool has found a way to solve this problem. These quick connectors can still sustain a high flow rate!

Alphacool's quick connectors are available in two models. In deep black and completely chromated versions, they fit seamlessly into any system.

Specifications

1. Side:	G1/4" inner thread
2. Side:	G1/4" inner thread
Color:	silver nickel
Compatibility:	Soft tubing (PVC, Silikon, Neoprene)
Manufacturer:	Alphacool
Material:	Brass
Rotatable:	No
Thread length:	5mm

Technical Specifications:

- Dimensions (L x D): 64.6 x 23.9mm
- Material: brass
- Colour: chrome

- Thread: 2x 1/4" inner

Scope of Delivery:

- 1x Alphacool Eiszapfen quick release connector kit with double bulkhead G1/4 inner thread - chrome

Notice:

The quick connectors should not be used dry for prolonged periods, as this will put stress on the o-rings and leak tightness can no longer be guaranteed.

Additional Information

Brand	Alphacool
SKU	AC-17367
Weight	0.5000
Special Order	No
Fitting Type	Disconnect
Fitting Size	1/4"
Fitting Angle	Straight
Fitting Finish	Chrome
Vendor SKU/EAN	4250197173674
