

Corsair SSD Mounting Bracket Kit 2.5" to 3.5" drive bay

\$7.99

Product Images

Short Description

The Corsair CSSD-BRKT1 SSD mounting bracket allows you to mount any Corsair 2.5" SSD into an available 3.5" HDD bay of your computer chassis. Thus your years-old desktop computer, not equipped with a dedicated SSD mounting spot, could harness the blazing-fast speed of the latest SSD storage technology. This mounting bracket comes with set of 4 screws used to secure the SSD in the mounting bracket and another set of 4 screws to fasten the bracket to 3.5" hard-drive bay.

Description

The Corsair CSSD-BRKT1 SSD mounting bracket allows you to mount any Corsair 2.5" SSD into an available 3.5" HDD bay of your computer chassis. Thus your years-old desktop computer, not equipped with a dedicated SSD mounting spot, could harness the blazing-fast speed of the latest SSD storage technology. This mounting bracket comes with set of 4 screws used to secure the SSD in the mounting bracket and another set of 4 screws to fasten the bracket to 3.5" hard-drive bay. The precision build allows it to perfectly fit in any standard 3.5" bay, and the sleek look with a black finish makes it look good in any setup.
