Short Description

Add vibrant color to your AIO cooler with the CableMod AIO Sleeving Kit. This kit is designed for Corsair® Hydro Gen 2 AIO coolers, and is the quickest and easiest way to spice up your AIO setup.

The CableMod AIO Sleeving Kit begins with our exclusive ModWrap™ Sleeving. This flexible sleeve wraps around your AIO tubing, and comes in variety of brilliant colors. This newest sleeving from CableMod is also color-matched to CableMod ModMesh™ sleeving, which means that it is a perfect match for your CableMod ModMesh cables.

Description

Add vibrant color to your AIO cooler with the CableMod AIO Sleeving Kit. This kit is designed for Corsair® Hydro Gen 2 AIO coolers, and is the quickest and easiest way to spice up your AIO setup.

The CableMod AIO Sleeving Kit begins with our exclusive ModWrap™ Sleeving. This flexible sleeve wraps around your AIO tubing, and comes in variety of brilliant colors. This newest sleeving from CableMod is also color-matched to CableMod ModMesh™ sleeving, which means that it is a perfect match for your CableMod ModMesh cables.

Installation is a total breeze. Simply wrap the ModWrap sleeving around your AIO tubing, and complete the look with the included molded fastening clips. These clips not only help secure the sleeving to your AIO tubing, but also give the setup a professional finish. The entire tool-free installation process takes less than three minutes, and because no disassembly is required, will not void your AIO's warranty.
