

PHANTEKS Phanteks Halos Lux
140mm Fan Frame,
Aluminum - Black

\$19.99

Product Images

Short Description

Crafted from a single block of aluminum, the Phanteks' Halos Lux RGB fan frames complements any premium system build with ambient illumination. Using high density LEDs, the Halos Lux can illuminate different varieties of fans including high performance fans made from PBT material. The Halos Lux RGB fan frames bring elegance and style to your system without compromising performance.

Description

Crafted from a single block of aluminum, the Phanteks' Halos Lux RGB fan frames complements any premium system build with ambient illumination. Using high density LEDs, the Halos Lux can illuminate different varieties of fans including high performance fans made from PBT material. The Halos Lux RGB fan frames bring elegance and style to your system without compromising performance.

Features

The Halos Lux RGB fan frame is developed to illuminate fan blades from different varieties of material/color with a bright ambient glow. This means even high performance fans made from PBT material, like Phanteks' MP and SP fans, can now be illuminated in any color. With the Halos there's no more compromise on performance when RGB illuminated fans are desired.
