Short Description

Phanteks' T-splitter Adapter is with 3 x G1/4 threads, useful for splitting or combining the liquid flow in your loop. Keeping with Phanteks' tradition, the T-splitter Adapter is easy to install. The T-splitter Adapter comes in a high quality surface finish in either Satin Black or Chrome giving your loop a distinct look.

Description

Phanteks' T-splitter Adapter is with 3 x G1/4 threads, useful for splitting or combining the liquid flow in your loop. Keeping with Phanteks' tradition, the T-splitter Adapter is easy to install. The T-splitter Adapter comes in a high quality surface finish in either Satin Black or Chrome giving your loop a distinct look.

Features

Design

- High Quality surface finish gives your loop a distinct look
- Integrated grip on all fittings for an easy and tool less installation process

Design For Performance

- High flow design with a large inner diameter and a smooth inner surface finish ensures unrestricted waterflow
- Precisely engineered with tight tolerances for the most reliable and best performing fittings
- CNC machined from solid brass to provide high longevity

Viton O-Ring For High Reliability

- Applied in automotive and aerospace industries
- Improved durability - resistant to wear and tear during installation
- Resistant to extreme temperatures and aggressive fluids
- Viton remains sealing performance for long periods of time

Additional Information

Brand	Phanteks
SKU	PH-TS-BK
Weight	0.1500
Special Order	No
Fitting Type	Splitter
Fitting Size	1/4"
Fitting Finish	Matte Black
