

ModMyToys Black-Out Series 8-Pin EPS Extension Cable - 24"

\$6.99

Product Images

Short Description

The ModMyToys Black-Out Series 8-Pin 12V EPS 18AWG Extension Cable is a standard 8-pin EPS extension cable that supports newer motherboards that require the 8-Pin EPS. These cables can help with your PSU cable management. The 8-pin cable is never long enough off the PSU to route behind the motherboard tray and it always seems to go directly across the board itself. This is an easy fix!

Description

The ModMyToys Black-Out Series 8-Pin 12V EPS 18AWG Extension Cable is a standard 8-pin EPS extension cable that supports newer motherboards that require the 8-Pin EPS. These cables can help with your PSU cable management. The 8-pin cable is never long enough off the PSU to route behind the motherboard tray and it always seems to go directly across the board itself. This is an easy fix!

The ModMyToys Black-Out Series is all black connectors, all black wire, and all black construction!

The ModMyToys Black-Out Series was created to cut right to the chase. No one really wants to see wire cable colors. Furthermore some people don't want to sleeve their cables or pay more for pre-sleeved cables. They simply want a cable that functions and doesn't distract from the rest of the hardware. Then steps in the Black-Out Series! The all black design will disappear in your case sending power and data where you need it without drawing attention to itself! The best part is these cables are priced right!
