Short Description

The RayStorm Neo combines the high performance of our RayStorm Pro block, with a premium new look. Each waterblock is carefully machined from pure copper and acrylic, while the hold down bracket is machined from solid aluminium. As with all XSPC products, no aluminium is used in the coolant flow path.

Description

The RayStorm Neo combines the high performance of our RayStorm Pro block, with a premium new look. Each waterblock is carefully machined from pure copper and acrylic, while the hold down bracket is machined from solid aluminium. As with all XSPC products, no aluminium is used in the coolant flow path.

The RayStorm Neo offers outstanding performance, low flow restriction, RGB lighting, and thanks to our new mounting system it's easier than ever to install.

Supplied with a multi function RGB controller and two RGB LEDs.

Specifications

- High performance copper base
- High quality acrylic top
- Solid aluminium bracket
- Low flow restriction
- RGB Lighting
