Short Description

Perfectly designed for gamers, the new Versa C23 Tempered Glass RGB Edition Mid-Tower chassis comes with brushed aluminum front and top panels for elegant aesthetic, an 4mm thick enlarged tempered glass side panel for a direct view of the inner system, and with the built-in RGB LED illuminating on front right and top right edges and also around top front I/O ports to give users a personal touch with 11 lighting modes whilst adding incredibly stunning visual perspective to the system. The Versa C23 TG RGB Edition supports the latest PC hardware and all high-end GPU solutions, guarantees on unparalleled expandability for high-end configurations and liquid cooling system to satisfy the market where users have opted for stylish PC chassis with advanced features and aesthetic appeal.

Description

Perfectly designed for gamers, the new Versa C23 Tempered Glass RGB Edition Mid-Tower chassis comes with brushed aluminum front and top panels for elegant aesthetic, an 4mm thick enlarged tempered glass side panel for a direct view of the inner system, and with the built-in RGB LED illuminating on front right and top right edges and also around top front I/O ports to give users a personal touch with 11 lighting modes whilst adding incredibly stunning visual perspective to the system. The Versa C23 TG RGB Edition supports the latest PC hardware and all high-end GPU solutions, guarantees on unparalleled expandability for high-end configurations and liquid cooling system to satisfy the market where users have opted for stylish PC chassis with advanced features and aesthetic appeal.

Features

Tt LCS Certified

Tt LCS Certified is a Thermaltake exclusive certification applied to only products that pass the design and

hardcore enthusiasts standards that a true LCS chassis should be held to. The Tt LCS certification was created so that we at Thermaltake can designate to all power users which chassis have been tested to be best compatible with extreme liquid cooling configurations to ensure you get the best performance from the best features and fitment.

Aluminum Front and Top Panels

Featuring brushed aluminum front and top panels to mask the extrusive drive devices, not only unify the appearance, but also provide a simple yet elegant aesthetic.

Gorgeous RGB LED Illumination

The Versa C23 RGB is an ideal chassis for those who want to show their style and personality in a subtle manner. With the RGB LED controller on the front-top panel, users get to enjoy 11 vivid lighting modes, including static color (red/blue/white/green), RGB spectrum and RGB breathing.

Control All Your RGB Lights by One Button

With the integrated RGB LED controller on the front-top panel, all the lighting effects of Thermaltake's Riing 12 RGB fan can fully sync with the lights of the built-in RGB LED.

**As Riing RGB fan does not offer breathing effect, so under breathing effect mode Riing RGB fan will stay in RED light.*

4mm Thick Enlarged Tempered Glass Side Panel

Versa C23 TG RGB adopts right 4 mm thick tempered glass window guarantees the durability of the window; moreover, the enlarged window design permits users to fully display and admire all components of the liquid-cooling system. Show off your dedicated set in the subtlest manner!

Fully Modular Concept

The fully modular drive cages minimize the hassles of installation and removal. Especially, the 3.5" & 2.5" drive bay is applied tool-less design that allows users to freely interchange the hard-drives to suit their particular needs. The dual drive bay concept of "2+6" offers a good ratio for accessories and storage devices.

Handy I/O Ports

The top-front panel is designed two USB 3.0 data transfer ports along with two standard USB 2.0 ports and a LED controller, to grand direct access when needed.

Superior Hardware Support

The Versa C23 TG RGB supports motherboards up to standard ATX, a tower CPU cooler with maximum height

155mm, and a dual expansion slot VGA of up to 400mm in length without front fan. Moreover, with the tool-free design, users can easily mount up to two 3.5"/2.5" (with HDD tray) and two 2.5" (with the M/B tray) storage devices into the build at the same time.

Outstanding Ventilation

The Versa C23 TG RGB's unparalleled cooling ability offers various mounting points to support any type of cooling you can dream of including DIY/AIO liquid-cooling systems and air-cooling units. Apart from the built-in 120mm rear fan, users are allowed to install up to 240mm DIY liquid cooling radiator or two 120mm fans at the front to optimize system ventilation.

Specifications

P/N	CA-1H7-00M1WN-00
Dimension (H x W x D)	510 x 200 x 508mm (20.1 x 7.9 x 20 inch)
Net Weight	8.5 kg / 18.73 lb
Side Panel	Tempered Glass*1
Color	Exterior & Interior : Black
Material	SPCC
Cooling System	Rear (exhaust) : 120 x 120 x 25 mm Turbo fan (1000rpm, 16dBA)
Case Type	Mid Tower
Drive Bays -Accessible -Hidden	2 x 3.5" or 2 x 2.5", 4 x 2.5"
Expansion Slots	7
Motherboards	6.7" x 6.7" (Mini ITX), 9.6" x 9.6" (Micro ATX), 120" x 9.6" (ATX)
I/O Port	USB 3.0 x 2, USB 2.0 x 2, HD Audio x 1
PSU	Standard PS2 PSU (optional)
LCS Upgradable	Supports 1/2"、3/8"、1/4" water tube

Fan Support	Front: 2 x 120mm Top: 2 x 120mm Rear: 1 x 120mm
Radiator Support	Front: 1 x 240mm , 1 x 120mm Top: 1 x 240mm, 1 x 120mm Rear: 1 x 120mm *Only Applicable up to 40mm high and 120mm wide
Clearance	CPU cooler height limitation: 155mm VGA length limitation: 400mm(Without Front Fan) PSU length limitation: 220mm

* Specifications are subject to change without notice.
