## Features

---

### Tt LCS Certified

Tt LCS Certified is a Thermaltake exclusive certification applied to only products that pass the design and hardcore enthusiasts standards that a true LCS chassis should be held to. The Tt LCS certification was created so that we at Thermaltake can designate to all power users which chassis have been tested to be best compatible with extreme liquid cooling configurations to ensure you get the best performance from the best features and fitment.

### Gorgeous RGB LED Illumination

With 7 distinctively gorgeous illumination display colors, the Versa C21 RGB is an ideal chassis for those who want to show their style and personality in a subtle manner. The light is visible from all angles. Users can use the LED controller on the top panel to switch between four different lighting schemes, including 7 multicolored mode, breathing light mode, single color mode (red, green, blue, purple, cyan, yellow and white) and blink mode.

### Fully Modular Concept

The fully modular drive cages minimize the hassles of installation and removal. Especially, the 3.5" & 2.5" drive bay is applied tool-less design that allows users to freely interchange the hard-drives to suit their particular needs. Moreover, the trio drive bay concept of "2+2+3" offers a good ratio for accessories and storage devices.

### Handy I/O Ports

The top-front panel is designed a USB 3.0 data transfer port along with two standard USB 2.0 ports and a LED controller, to grand direct access when needed. The Versa C21 RGB is also equipped with two fan speed controllers on the top-front panel. Each fan speed controller can control up to two fans.

### Superior Hardware Support

The Versa C21 RGB supports motherboards up to standard ATX, a tower CPU cooler with maximum height 160mm, and a dual expansion slot VGA of up to 390mm in length without front fan. Moreover, with the tool-free design, users can easily mount up to three 2.5", two 3.5" and two 5.25" storage devices into the build at the same time.

### Outstanding Ventilation

The Versa C21 RGB's unparalleled cooling ability offers with various mounting points to support any type of cooling you can dream of including DIY/AIO liquid-cooling systems and air-cooling units. Users are allowed to install up to 360mm DIY liquid cooling radiator, 240mm AIO liquid cooler or two 140mm fans at the front; two 120mm on the top and a rear 120mm fan. In addition, all intake ventilation holes are specially designed with removable dust filters to keep the interior dust free.
