

Cooler Master Case H500P ATX Mid-Tower Case

\$149.99

Product Images

Short Description

The MasterCase H500P is a Mid-Tower with two impressive 200mm RGB fans installed in the front and space for two optional 200mm fans in the top. A PSU shroud, CPU cut out cover and additional cable covers together with the built-in vertical graphics card mounting allow you to make a clean build. The case has a clear view inside through the light grey tinted tempered glass side panel and plastic top/front covers. The case supports up to 360mm radiators on the top and front.

Description

The MasterCase H500P is a Mid-Tower with two impressive 200mm RGB fans installed in the front and space for two optional 200mm fans in the top. A PSU shroud, CPU cut out cover and additional cable covers together with the built-in vertical graphics card mounting allow you to make a clean build. The case has a clear view inside through the light grey tinted tempered glass side panel and plastic top/front covers. The case supports up to 360mm radiators on the top and front.

Features

TWO PRE-INSTALLED 200mm RGB FANS*

Two pre-installed 200mm RGB fans in the front and two optional 200mm fans in the top guarantee high volume intake of fresh air.

**Additional controller or compatible motherboard required for RGB functionality.*

CABLE MANAGEMENT COVERS

A PSU shroud, CPU cut out cover and additional cable covers for clean cable management.

BUILT-IN VERTICAL GRAPHICS CARD MOUNT

Two additional PCI slots at the rear enable you to show off one graphics card in the vertical position.
