

Thermaltake Water 3.0 Ultimate Enthusiasts Class Water/Liquid CPU Cooler 360MM - AM4 Ready

\$139.99

Product Images

Short Description

Formed to support the desires of enthusiasts, Thermaltake new Water 3.0 Ultimate is an All-In-One LCS with an especially large 360mm radiator design. When choosing a highly-efficient liquid cooler to control any escalating CPU temperatures, it also includes an easy, clean, and low-maintenance setup. The new Thermaltake All-In-One LCS Water 3.0 Series is designed to exceed user expectations. One simple upgrade allows users to enjoy a better cooling performance with superior CPU protection.

Description

Formed to support the desires of enthusiasts, Thermaltake new Water 3.0 Ultimate is an All-In-One LCS with an especially large 360mm radiator design. When choosing a highly-efficient liquid cooler to control any escalating CPU temperatures, it also includes an easy, clean, and low-maintenance setup. The new Thermaltake All-In-One LCS Water 3.0 Series is designed to exceed user expectations. One simple upgrade allows users to enjoy a better cooling performance with superior CPU protection.

Features

High Performance Waterblock

The high performance copper base plate accelerates the heat conductivity. Additionally, the pre-refilled coolant reduces any stress from liquid replenishment hassle.

High Efficiency Radiator

The specially designed 360mm large surface radiator not only doubles the cooling surface, but also supports up to 6 x 120mm fans for additional heat dissipation.

Triple Curve Fans

The triple 120mm PWM fans provide an instantaneous cooling function. The powerful PWM controlled fan speed is between 1000~2000rpm, reducing the radiator heat from the chassis to maximize cooling off performance.

High Reliability Pump

The high quality and reliable pump enables the maximum amount of water circulation, keeping the copper plate continuously cool. The low evaporation tube effectively decreases the loss of coolant; therefore no refill is either needed or required.

Easy and Simple Installation

The Water 3.0 Series features the latest cooling performance technology from Thermaltake, providing a simple installation system, and a totally maintenance-free operation. The Water 3.0 Series is easy to install and requires the minimum amount of space in the chassis.

Specifications

Compatibility	Intel LGA 2066/2011-3/2011/1366/1156/1155/1151/1150 AMD AM4/FM2/FM1/AM3+/AM3/AM2+/AM2
Water Block	Material : Copper
Pump	Motor speed : 3600+-150 RPM Rated Voltage : 12V Rated Current : 325 mA
Fan	Dimension : 120 x 120 x 25mm Speed : 1000~2000RPM Noise Level : 20 dBA Rated Voltage : 12V Rated Current : 0.3 A Max. Air Flow : 99 CFM Connector : 4 Pin

Radiator	Dimension : 393x 120 x 27 mm Material : Aluminum
Tube	Length : 326 mm Material : Rubber
Weight	1.32 kg

Additional Information

Brand	Thermaltake
SKU	CL-W007-PL12BL-A
Weight	6.0000
Color	Black
Block CPU Type	Intel/AMD
Pump Type	Other
Radiator Size	360 (3 x 120mm)
Radiator Thickness	27mm
Vendor SKU/EAN	841163057100
