Product Images

Short Description

The RayStorm Neo combines the high performance of our RayStorm Pro block, with a premium new look. Each waterblock is carefully machined from pure copper and brass, while the hold down bracket is machined from solid aluminium. As with all XSPC products, no aluminium is used in the coolant flow path.

Description

The RayStorm Neo combines the high performance of our RayStorm Pro block, with a premium new look.

Each waterblock is carefully machined from pure copper and brass, while the hold down bracket is machined from solid aluminium. As with all XSPC products, no aluminium is used in the coolant flow path.

The RayStorm Neo offers outstanding performance, low flow restriction, and thanks to our new mounting system it's easier than ever to install.

Features

- High performance copper base
- Chrome plated brass top
- Solid aluminium bracket
- Low flow restriction
- G1/4" threads
- Compatible with most compression fittings

Specifications

Supports Intel Sockets:LGA2066, LGA2011, LGA2011-3, LGA1366, LGA1150, LGA1151, LGA1155, LGA1156

Supplied with mounting hardware, 1150/1151/1155/1156, and 1366 backplates, and K3 thermal paste.

Additional Information

Brand	XSPC
SKU	XSPC-RAYSTORM-NEO-INTEL-METAL
Weight	1.7000
Color	Chrome
CPU Series	Intel LGA2066, LGA2011, LGA2011-3, LGA1366, LGA1150, LGA1151, LGA1155, LGA1156
Block CPU Type	Intel
Block Style	Copper
Vendor SKU/EAN	5060175589767
Special Price	\$75.96
