

LIAN LI ALPHA 550X Black SECC ATX Mid Tower Computer Case

\$210.95

Product Images

Short Description

The Alpha 550 housing is a mid tower with a particularly good price/performance ratio from the renowned manufacturer Lian Li, which is equipped with many tempered glass elements and well thought-out features. Three pre-installed 120 mm RGB fans, extensive cable management for a clean appearance, readiness for vertical graphic card mounting and extensive watercooling support are just some of the highlights that distinguish the stylish housing.

Description

The Alpha 550 housing is a mid tower with a particularly good price/performance ratio from the renowned manufacturer Lian Li, which is equipped with many tempered glass elements and well thought-out features. Three pre-installed 120 mm RGB fans, extensive cable management for a clean appearance, readiness for vertical graphic card mounting and extensive watercooling support are just some of the highlights that distinguish the stylish housing.

Features

Cable management

With tempered glass all-around, hiding cables is essential. The cable shroud behind the motherboard tray is spacious enough to hide all the cables in your build, and then some! Clean is the new standards.

Cable ties

Lose the unnecessary cable ties. The Alpha series uses an all tool-less design for easy cable management.

Darkened tempered glass

The left tempered glass panel features two levels of transparency. This hides the cables in the PSU shroud area, and maintains that classy tempered glass look.
