#### Description

Get PRO results with the CableMod PRO ModMesh 6-pin PCI-e Extension. These cable extensions work with your power supply's existing PCI-e cables, and are the easiest way to give your system that professionally sleeved look.

CableMod PRO Series extension cables utilize a new and improved thicker wire, reducing the gap between each individual wire for a fuller, more robust appearance. The color pattern has also been revamped by the community, and to tie the entire look together, come with closed cable combs pre-installed.

Each wire is individually wrapped in our famous ModMesh sleeving for vivid color and enhanced durability. Each cable is 100% heatshrink-free for the cleanest possible look, and precision molded connectors ensure a secure and proper fit.

#### **Features**

Here's what you get inside the package:

• 1 x 6-pin PCI-e extension (450mm)
