

# In-Win POLARIS RGB 120mm LED Case Fan - Twin Pack

\$38.95

## Product Images

## Short Description

---

The Polaris RGB fans build on the core features of the Polaris LED adding a 4-pin PWM control, and the infinite color selection of RGB LEDs, allowing users to customize the color and performance to precisely match their PC design and cooling needs. Six independent RGB LEDs are located in the central fan hub, pointing out towards the edges illuminating the gaming rig.

## Description

---

The Polaris RGB fans build on the core features of the Polaris LED adding a 4-pin PWM control, and the infinite color selection of RGB LEDs, allowing users to customize the color and performance to precisely match their PC design and cooling needs. Six independent RGB LEDs are located in the central fan hub, pointing out towards the edges illuminating the gaming rig. Polaris RGB syncs with most common RGB-equipped motherboards. Multiple fans can be daisy chained together using the provided short or long cable inter-links, making this modular design ideal for any chassis and water-cooling radiator fans.

## Features

---

## RGB LED Lighting Module

There are six independent RGB LEDs stationed in the center of the fan. Gamers can control the LEDs with their motherboard control software. No controller required!

## Daisy Chain, Modular Connector Design

Our new modular connector design allows each fan to link with each other to create a daisy chain effect. This new setup allows for easier installation and tidier cable management. Users can create their own personal experience with flexible fan combinations.

## Transparent Frame

The RGB LEDs penetrate from the center and expand throughout the transparent frame, increasing the visual lighting experience. Also, the PBT material is heat-resistant, which increases long-term durability.

## Shockproof Rubber Stand

Four shockproof rubber stands strategically placed on the corners to reduce vibrations while in operation.

## Silent Cooling Fan

Polaris can speed up to 1280 RPM and PWM mode allows users to control the fan speed automatically. We modified the design of the blades and developed a dynamic balance, to effectively reduce the fan noise level.

## Specifications

---

<b>Product Name</b>	Polaris RGB	
<b>Part Number</b>	Single Pack	POLARISFAN-1PK-RGB
	Twin Pack	POLARISFAN-2PK-RGB
<b>Fan Size</b>	120 x 120 x 25mm	
<b>Material</b>	PBT, PC	
<b>Starting Voltage</b>	5V	
<b>Fan Rated Voltage</b>	12V	
<b>Fan Rated Power</b>	1.2W	

<b>Fan Rated Current</b>	0.10A
<b>RGB LED Rated Voltage</b>	12V
<b>RGB LED Rated Power</b>	1.2W
<b>RGB LED Rated Current</b>	0.10A
<b>Speed Mode</b>	500~1280R.P.M
<b>Air Flow</b>	43.31CFM
<b>Air Pressure</b>	1.26mm-H2O
<b>Fan Connector</b>	8-Pin Modular
<b>Noise Level</b>	20.2dB(A)
<b>Bearing Type</b>	Sleeve Bearing
<b>Life Expectation</b>	35,000 hrs / 25°C
<b>Net Weight</b>	362g (2 Pack) / 178g (1 Pack)
<b>Package Dimension (H x W x D)</b>	185mm x 125mm x 53mm (2 Pack) 185mm x 125mm x 30mm (1 Pack)
<b>Warranty</b>	2 years

\* Specifications may vary based on different regions.

## Additional Information

Brand	INWIN
SKU	POLARISFAN-2PK-RGB
Weight	0.7000
Color	Clear
Fan Dimensions	120mm
Fan Width	25mm
Fan Connection	8-pin
Fan Voltage	12 VDC
Fan RPM	1200
Fan CFM	43
Fan Noise (dB)	20
LED Color	RGB
