Alphacool Aurora XPX RGB frame - black

$22.50

Product Images

Beleuchtungsbeispiel (example of lighting)

Beleuchtungsbeispiel (example of lighting)
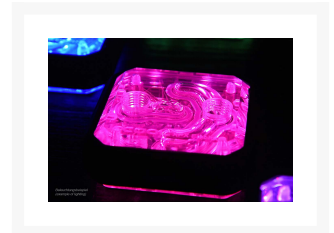

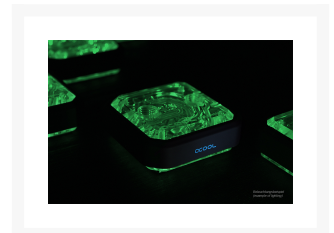

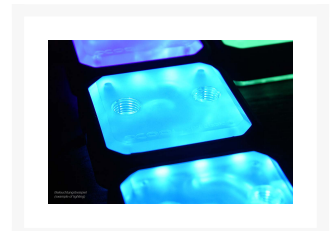

Short Description

With an impressive 15 RGB LEDs evenly distributed over the XPX Eisblock CPU cooler, perfect lighting is guaranteed. The RGB controller lets you change not only the colours, but also add colour effects like gradients, blinking, slow colour changes, and much more. Many controllers also include a dimmer function. The Alphacool XPX RGB frame leaves nothing to be desired.

Description

The Alphacool XPX RGB frame is intended for users of the Eisblock XPX CPU cooler who are looking for the perfect lighting for their cooler. The RGB frame simply slides over the Eisblock XPX cooler and is then connected to the RGB controller.

With an impressive 15 RGB LEDs evenly distributed over the XPX Eisblock CPU cooler, perfect lighting is guaranteed. The RGB controller lets you change not only the colours, but also add colour effects like gradients, blinking, slow colour changes, and much more. Many controllers also include a dimmer function. The Alphacool XPX RGB frame leaves nothing to be desired.

With the 4Pin 12V RGB plug, all Alphacool RGB products are compatible with the current RGB-sync technologies of all prominent mainboard manufacturers (ASUS, AROCK, MSI, and GIGABYTE).

Features

- super easy installation
- 15 RGB LEDs for perfect lighting
- compatible with all standard RGB controllers
- intended for Eisblock XPX satin or clear CPU cooler
