

Bitspower True Brass Y-Block With Triple Rotary IG1/4"

\$22.95

Product Images

Short Description

Bitspower now offers a rotary "Y" Fitting with (3) G 1/4" threaded ports. This is perfect to split your loop to two different blocks and gives you the advantage of using your choice of fittings whether they be barbed or compression and even lets you mix sizes if your loops use two different size tubings! The nice thing about rotary fittings is you can rotate your fittings threaded ports 360 degrees. This is great to insure no stress to your tubing and easy rotation to allow your tubes to go where you want them to go. High quality Bitspower metal fittings are sure to provide ultimate seals in your water cooling system!
