\$4.50

Product Images

Short Description

This new premium "Diamond Series" Fitting is a G 1/4" threaded male to male fitting. Uses an O-Ring to seal. Large ID bore for high flow and lower pressure drop compared to other fittings.

Description

This new premium "Diamond Series" Fitting is a G 1/4" threaded male to male fitting. Uses an O-Ring to seal. Large ID bore for high flow and lower pressure drop compared to other fittings. This is perfect for use with Delrin T's and L's. It will screw in to the available port. Using a Delrin 90 degree L and one of these fittings plus one regular barb is perfect for use the lower PCI Express video card in SLI. This keeps the barb from hitting the floor of the case or lower mounted PSU by quickly changing the flow in a 90 degree manner. This new Diamond Series Version has the smallest spacing available between barbs making it perfect for user's applications that require extremely limited space. Learn the name; Bitspower Premium water cooling products.
