Features

Modest yet Sharp Luminous Front Panel

The 101 hosts a hidden power button, which discretely intermixes with the unique LED logo. The front bezel lights up as the system is powered on. To keep the front simple and clean, the front I/O is positioned at the top, which grants easier access for PCs stored under desks or tables.

* RGB lighting will be available in some regions.

Accelerated Tool-less Design

101 has perfected a tool-less design. The 3mm tempered glass side panel can be easily removed by pulling the clip and lift up. (Steel and acrylic side panel are available upon request).

Top PSU Chamber for Better Air Flow

The top PSU chamber not only makes the system cleaner, but also creates an ideal climate for the without interfering with the motherboard and graphics card area.

Purge the Dust!

The bottom dust filter is highly accessible and is designed for quick removal. The embedded design allows users to remove the dust filter without any restrictions.
