Short Description

With the new NexXoS GPX coolers, Alphacool is once again a step ahead! Optimal performance and quality in one offers this new cooling concept for little money!

Description

With the new NexXoS GPX coolers, Alphacool is once again a step ahead! Optimal performance and quality in one offers this new cooling concept for little money!

Features

Upgrade Kit: If you buy a new graphic card and want to integrate it into your cooling system, you do not need to buy new graphics card coolers, which sometimes goes deep into the pockets, but can save money with this Alphacool GPX upgrade kit. Simply unscrew the GPX cooler from the old cooling fins and install it on the new cooling ribs or on the upgrade kit. - To achieve the best possible cooling performance, first remove the "old / existing" heat transfer paste on the GPX cooler and wear a new thin Layer heat transfer paste between the GPX cooler and the new upgrade kit.

Backplate: Included in the delivery is always a backplate, which once again cools the graphics card with small passive cooling ribs, gives the graphics card a perfect impression and at the same time protects.

Cooling ribs: The passive cooling is carried out by means of perfectly matched, barely 18mm deep cooling ribs, which completely cover the rest of the graphics card. Thanks to a light air circulation in the housing, this cooler does not match the conventional coolers.

Delivery without graphics card

Specifications

Compatible:

ASUS ROG Strix GeForce GTX 1080, STRIX-GTX1080-8G-GAMING, 8GB GDDR5X, DVI, 2x HDMI, 2x DisplayPort (90YV09M1-M0NM00)

ASUS ROG Strix GeForce GTX 1080 Advanced STRIX-GTX1080-A8G-GAMING 8GB GDDR5X (90YV09M2-M0NM00)

ASUS ROG Strix GeForce GTX 1080 OC STRIX-GTX1080-O8G-GAMING 8GB GDDR5X (90YV09M0-M0NM00)

Delivery:

- 1x Graphics card cooler
- 1x Backplate
- Thermal pads
- Heat conducting paste
- Mounting material

Additional Information
